MATH: Algebra 1 – Geometry - Algebra 2 - Pre-Calculus

ALGEBRA 1

Book to purchase: MATH U SEE Algebra 1 Level Up Base Set (includes all materials for parent and student)

<https://store.demmelearning.com/algebra-1-level-up-base-set.html>

Pre-Algebra is a pre-requisite. This class is the foundation for all higher math; therefore it is the most important math class your student will take. It covers graphing, simultaneous equations, exponents, polynomials, unit multipliers, and more. Please ensure your student is ready for Algebra 1 by taking this placement test (copy URL and paste in your browser) <http://mathusee.com/placement/assessments/algebra-1-placement-assessment/>

Students who are ready for Algebra 1:

Proficiently add, subtract, multiply, and divide whole numbers, fractions, mixed numbers, and decimals; Convert between a fraction, decimal, and percent; Solve one-step equations; Plot points on a number line and coordinate grid; Perform operations with integers; Write an algebraic expression to solve a word problem.

GEOMETRY

Book to purchase: MATH U SEE Geometry Universal Set (instruction materials w/ answers & student pack)

<https://store.demmelearning.com/geometry-universal-set.html>

Algebra 1 is highly recommended as a pre-requisite.

Points, lines, planes, angles, circles, triangles, quadrilaterals, Pythagorean Theorem, conic sections, proofs and more. Please ensure your student is ready for Geometry by taking this placement test (copy URL and paste in your browser). <http://mathusee.com/placement/assessments/geometry-placement-assessment>

ALGEBRA 2

Book to purchase: MATH U SEE Algebra 2 Universal Set (instruction materials w/answers & student pack)

<https://store.demmelearning.com/algebra-2-universal-set.html>

Algebra 1 is a pre-requisite. Geometry is recommended.

Factoring polynomials, quadratic formula, graphing conic sections and other Algebra 2 topics. Please ensure your student is ready for Algebra 2 by taking this placement test (copy URL and paste in your browser).

<http://mathusee.com/placement/assessments/algebra-2-placement-assessment>

PRE-CALCULUS

Book to purchase: MATH U SEE Pre-Calculus Student Pack (Student Workbook & Tests)

<https://store.demmelearning.com/math-u-see/secondary-math/precalculus>

Algebra 2 is a pre-requisite.

Trigonometry, identities, polar equations, logarithms, sequences, limits and other topics that prepare students for Calculus. Students will need a protractor, ruler, and scientific calculator that can calculate square roots, trigonometric functions, logarithms, and natural log.

SCIENCE WITH LABS: Biology - Chemistry - Physics

BIOLOGY - we are using the 2nd edition – do not buy the 3rd edition!

Book to purchase: Apologia Exploring Creation with Biology - 2nd edition

ISBN 978-1-932012-54-5

Book to purchase: Solutions and Tests

ISBN 978-1-932012-55-2

www.apologia.com

No pre-requisite. This course features an introduction to the study of living things. The chemistry of life, cell structures and processes, cellular reproduction, genetics, ecosystems, and creation vs. evolution. The five major kingdoms are studied individually. The experiments include dissections with high quality microscopes and dissection kits. This award-winning, college-prep biology course provides the student with a solid background in biology which is presented in a readable, conversational tone, taught from a Christian worldview.

CHEMISTRY

Book to purchase: Discovering Design with Chemistry (formerly Apologia)

ISBN 978-0-9962784-6-1

Book to purchase: Answer Key and Tests

ISBN 978-0-9962784-7-8

www.bereanbuilders.com

Pre-requisite: Algebra 1.

This course covers fundamental aspects of chemistry such as the classification of matter, atomic structure, spectroscopy, chemical bonding, molecular geometry, physical change, chemical change, stoichiometry, solutions, ideal gases, acid/base chemistry, reduction/oxidation reactions, thermochemistry, thermodynamics, kinetics, and chemical equilibrium. Weaving together concepts and their mathematical applications, the course teaches students how to think as a chemist, so they can analyze the major changes that occur in matter. Throughout the course, the student is shown how chemistry reveals the amazing design that exists all around us. From the details of atomic structure to the makeup of the very air that we breathe, chemistry shows us the marvelous handiwork of God.

This course provides an intro to the methods and concepts of general physics, teacher emphasizes experiential understanding of concepts. It provides the student with a background in units, measurement, one and two-dimensional motion, Newton's laws and their application, gravity, work & energy, momentum, periodic motion, waves, optics, electrostatics, electrodynamics, electrical circuits, and magnetism.

LITERATURE: Fundamentals - Classic - American - British

All Literature classes include writing elements.

Reading and writing are fundamental skills that most high school students are not learning well.

These classes prepare your student for college and beyond.

FUNDAMENTALS OF LITERATURE

Book to purchase: BJU Fundamentals of Literature 2nd edition

ISBN 978-1-62856-436-5

bjupress.com

No pre-requisite. Designed to be the student's first high school literature class, Fundamentals of Literature presents the foundational elements for literary analysis. Covering the topics of conflict, character development, point of view, plot, theme, tone. This course provides excellent practice in examining fiction and non-fiction works under the light of a biblical framework. Weekly assignments involve selected readings and discussion questions as well as writing practice on the various topics listed above.

ELEMENTS OF CLASSIC LITERATURE

Book to purchase: BJU Elements of Literature 2nd edition

ISBN 978-1-62856-565-2

bjupress.com

No pre-requisite but Fundamentals is recommended. Elements of Literature broadens students' understanding of literature by focusing on advanced literary concepts. Students will learn the method and the importance of literary analysis by studying pieces from several genres and interpreting them in light of biblical truth. The textbook promotes critical thinking skills as key to understanding and appreciating literature. Also, a visual analysis section found at the beginning of each unit relates the unit's topic with the visual arts.

AMERICAN LITERATURE

Book to purchase: BJU American Literature 3rd edition

ISBN 978-1-60682-733-8

bjupress.com

No pre-requisite but Fundamentals is recommended. American Literature Student Text (3rd ed.) contains introductory essays for each unit providing an overview of the cultural and historical events and ideas influencing each literary period. The instruction for the literature selections is structured around the reading process approach. Students will improve close-reading skills with questions during reading that focus on the three strands of study: Analyze, Read, and Evaluate. Students will have a chance to critically assess the original writings using a biblical framework. This course provides an excellent companion study to American History

BRITISH LITERATURE/MOVIES AS LITERATURE

Book: Some works will be found online. Other texts available to purchase from OT.

No pre-requisite but Fundamentals is recommended. This course is designed to give students a more in-depth look at classic works of British Literature. Instead of focusing on excerpts of numerous authors, we will be concentrating on a few authors and reading pieces of works in their entirety. We will cover short stories, historical fiction, plays, and poetry. Students will be expected to complete weekly reading assignments, participate in class discussions on elements such as a theme, motifs, symbolism, and character. Grades will be based on weekly class discussions, weekly quotes, reading response journals, as well as worksheets, quizzes, and tests. An oral presentation will be assigned in the Fall and a final analysis paper will be due in the Spring.

Student Text ISBN 978-0-8010-1661-5

Book to purchase: *Survey of the New Testament, Benware*

Student Text ISBN 978-0-8024-2124-1

In the tumultuous and bewildering world in which we live, the believer is ever in need of the correction, instruction, and guidance, of God's sure Word. In order to live lives that honor the Savior we love, we need to do our best to understand the Bible. Young people especially need to establish a comprehension of Scripture that can serve as a solid foundation for life. Students will be expected to read through the entire New Testament over 4 semesters (2 years). In class, we will consider the background, the authorship and readership, the time and place of writing, as well as an investigation of the structure, and an overview of the content of each Book of the New Testament. This is all designed to equip the student with comfort and confidence in utilizing God's Word. The course is not designed to focus on the doctrinal elements or theological arguments. Those matters we reserve for parents and pastors.
